 <b>GENERAL CONTACT REPORT</b>	Date 4/1/97	Name   Organization Chemical Control Division lp
	Name of EPA Rep. Gary Timm <input type="checkbox"/> Check if Contact Initiator	Type of Contact <input checked="" type="checkbox"/> Telephone <input type="checkbox"/> Meeting <input type="checkbox"/> Other _____
Name of MFG / Org Rep. Loren Maas, Siemens Power Corp <input checked="" type="checkbox"/> Check if Contact Initiator		
Topic Covered: Note any resolutions and/or additional Actions Required on this Form.		
<p>Discussed whether Siemens manufactured HF as a byproduct. They reportedly generate an HF solution that is less than 50% HF. I explained the three ways a manufacturer could meet his obligations under TSCA (1. test yourself; 2. join a consortium for testing; 3. file an exemption with the understanding that you may be billed at a later time); I referred him to Dayton Eckerson who has researched the byproduct issue and to Rich Leukroth who is the current HAPs project manager.</p> <p><b>Contains No CBI</b></p>
